Protect your business and your clients. Gain a competitive advantage.

A complete solution that takes the risk and hassle out of endpoint computing.

Computers are more complex, more connected and more vulnerable than ever before. We rely on them to run our businesses, loading them with sensitive information. Unmanaged they quickly become a barrier to productivity, and a liability. Too often we've depended on a patchwork of software, hardware, scattered support, a few policies and good intentions. So NPC had a better idea.

NPC saves you time, improves productivity and lowers cost by providing laptops, desktops and tablets that include powerful data security featuring military-grade encryption, backup, and award-winning technical support services, all in a single monthly fee. That's Smarter Computing™.

EXCLUSIVE OFFER FOR IDC WORLDSOURCE INSURANCE NETWORK

Receive any one of the following offers with each NPC system you order.*
Visit www.npcdataguard.com/idcwin or call 1-855-667-2642 for more information.

Option One	Option Two	Option Three
One Month Free (valued at over $139)	Free Data Migration (valued at $195)	Three Months of Cellular Data Free (valued at over $150)

NPC™

Empowering the workforce

NPC DataGuard is an integrated security solution for professionals who need to know their data is always safe and accessible, no matter where business takes them.

NPC DataGuard does not just minimize time lost to security breaches. It improves productivity by linking data security, device security, cloud storage and technical support into a single, powerful shield that empowers the workforce.

MILITARY-GRADE DATA SECURITY

Keep compliance simple and your information secure, everywhere it goes. Anchored by multi-layered data security and encryption measures, actively monitored 24 hours a day for device intrusions and malware, and backed up in our Canadian data centre, our data security standards ensure your data is safe.

SECURE CLOUD BACKUP

Continuous backup keeps data safe and accessible even when your computer isn't. When you're on the move, your data remains secure and accessible to you via the web on any device with an Internet connection, keeping your information constantly backed up to a secure cloud.

PERSONALIZED IT SUPPORT TEAM

24/7 monitoring and live remote troubleshooting mean you're never alone. Our live support team maintains a 24/7 operation in our Canadian-based call centre to provide technical help and emergency interventions when you need it. It's our responsibility to keep you up and running, no matter what the situation.

BLAZINGLY FAST, RELIABLE HARDWARE

Boldly go, with NPC's custom-configured notebooks, desktops and tablets. We specially configure each NPC computer to meet your demands running the most up-to-date Microsoft® Windows® operating systems and software. Lost or stolen machines are rapidly locatable and securable, and a fully configured replacement with your up-to-date data is supplied as quickly as possible.

> "When I think of the companies I use, NPC has the highest satisfaction rating because it gives me peace of mind on two fronts. Firstly, if something goes wrong they are one phone call away. I don't have to call my son, who for that reason now loves NPC more than I do. Secondly, we deal with a lot of confidential information, so the fact we are automatically backed up 24/7 makes it easier for us. I know that the support people at NPC are immensely patient and with that kind of support NPC is extremely valuable. When you factor in everything else you would normally have to spend, NPC is overall an inexpensive service."
