Protect your business and your clients. Gain a competitive advantage.

Computers are more complex, more connected and more vulnerable than ever before. We rely on them to run our businesses, loading them with sensitive information. Unmanaged they quickly become a barrier to productivity, and a liability. Too often we've depended on a patchwork of software, hardware, scattered support, a few policies and good intentions. So NPC had a better idea.

NPC saves you time, improves productivity and lowers cost by providing laptops, desktops, and tablets that include powerful data security featuring military-grade encryption, backup, and award-winning technical support services, all in a single monthly fee. That's Smarter Computing.

NPC DataGuard is an integrated security solution for professionals who need to know their data is always safe and accessible, no matter where business takes them.

NPC DataGuard does not just minimize time lost to security breaches. It improves productivity by linking data security, device security, cloud storage, and technical support into a single, powerful shield that empowers the workforce.

Security & Data Protection

Easily meet compliance requirements and know with confidence your information is secure.

Secure Cloud Backup

Daily secure backup keeps your data safe and accessible whenever you need it.

Powerful & Reliable Hardware

Select from a line of HP business-grade computers with custom security configurations for you.

Premium 24/7/365 Support

It's our responsibility to keep you up and running, no matter what the situation.
