

Protect your business and your clients.
Gain a competitive advantage.

A complete solution that takes the risk and hassle out of computing for PPI Advisors.

Computers are more complex, more connected and more vulnerable than ever before. We rely on them to run our businesses, loading them with sensitive information. Unmanaged they quickly become a barrier to productivity, and a liability. Too often we've depended on a patchwork of software, hardware, scattered support, a few policies and good intentions. So NPC had a better idea.

NPC saves you time, improves productivity and lowers cost by providing laptops, desktops and tablets that include powerful data security featuring military-grade encryption, backup, and award-winning technical support services, all in a single monthly fee. That's Smarter Computing™.

NPC DataGuard

NPC DataGuard is an integrated security solution for professionals who need to know their data is always safe and accessible, no matter where business takes them.

NPC DataGuard does not just minimize time lost to security breaches. It improves productivity by linking data security, device security, cloud storage and technical support into a single, powerful shield that empowers the workforce.

MILITARY-GRADE DATA SECURITY

Keep compliance simple and your information secure, everywhere it goes. Anchored by multi-layered data security and encryption measures, actively monitored 24 hours a day for device intrusions and malware, and backed up in our Canadian data centre, our data security standards ensure your data is safe.

SECURE CLOUD BACKUP

Continuous backup keeps data safe and accessible even when your computer isn't. When you're on the move, your data remains secure and accessible to you via the web on any device with an Internet connection, keeping your information constantly backed up to a secure cloud.

BLAZINGLY FAST, RELIABLE HARDWARE

Boldly go, with NPC's custom-configured notebooks, desktops and tablets. We specially configure each NPC computer to meet your demands running the most up-to-date Microsoft® Windows® operating systems and software. Lost or stolen machines are rapidly locatable and securable, and a fully configured replacement with your up-to-date data is supplied as quickly as possible.

PERSONALIZED IT SUPPORT TEAM

24/7 monitoring and live remote troubleshooting mean you're never alone. Our live support team maintains a 24/7 operation in our Canadian-based call centre to provide technical help and emergency interventions when you need it. It's our responsibility to keep you up and running, no matter what the situation.

“ Three years ago I became concerned with protecting client data, technology support and the ever rising cost of computer replacements. After researching NPC offerings I chose to engage with them, signing a lease for a new laptop and technology support services. Since then I've been a very satisfied customer. NPC's courteous technology support staff makes my job easier, knowing whatever technology issues I have are resolved quickly and without issue. My contract is coming due this summer and I look forward to renewing my relationship with NPC. ”
